Create a Bulk Apex trigger

Create a bulkified Apex trigger that adds a follow-up task to an opportunity if its stage is Closed Won. Fire the Apex trigger after inserting or updating an opportunity.

- Create an Apex trigger:

  - Name: `ClosedOpportunityTrigger`

  - Object: **Opportunity**

  - Events: after insert and after update

  - Condition: Stage is `Closed Won`

  - Operation: Create a task:

    - `Subject` : `Follow Up Test Task`

    - `WhatId` : the opportunity ID (associates the task with the opportunity)

  - Bulkify the Apex trigger so that it can insert or update 200 or more opportunities

```
trigger ClosedOpportunityTrigger on Opportunity (after insert, after update) {

    List<Task> taskList = new List<Task>();

    for (Opportunity opp: Trigger.New){
        if(opp.stageName == 'Closed Won'){

            Task t1 = new Task();
            t1.subject ='Follow Up Test Task';
            t1.whatId = opp.Id;
            taskList.add(t1);
        }

    }

    insert taskList;
}
```
